Reduce waste. Go green.

A reprocessing solution designed to:

- **Meet sustainability goals**
- **Reduce hospital waste**

Kendall DL™ Disposable Cable and Lead Wires and Kendall SCD™ Sequential Compression Sleeves are intended for single-patient use.

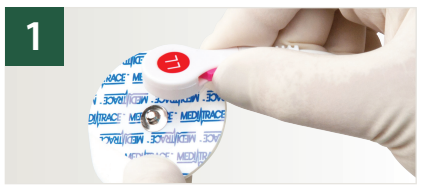

Place the used compression sleeves, cables and lead wires in the provided collection hampers after the patient is discharged.

Kendall DL™ Disposable Cable and Lead Wires

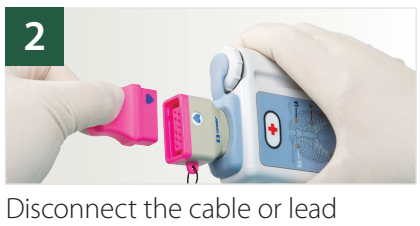

After every patient use:

1

Detach all electrodes by pushing the pink button and releasing the head of the lead set from the electrode snap.

2

Disconnect the cable or lead set from the bedside monitor or telemetry box.

3

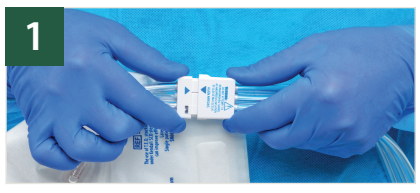

Leave the reusable adapter connected to the bedside monitor or telemetry box.

Kendall SCD™ Sequential Compression Sleeves

After every patient use:

1

Detach tubing from the sequential compression sleeves.

2

Leave tubing connected to the controller.

3

Deposit used products in the hampers we have provided for reprocessing.

Do not use collection bins to discard the following items:

Sharps
No scalpels, needles, syringes, sutures or glass

Waste
No personal equipment, trash, patient care disposables or linens

Batteries
Remove from device but do not place in collection container

Kendall SCD™ controllers
Leave tubing connected to the Kendall SCD™ controllers

Kendall SCD™ tubing
Leave tubing connected to the Kendall SCD™ controllers

Reusable Kendall DL™ adapters
Leave adapters connected to bedside monitors or telemetry boxes
