# Reduce waste. Go green.

**A sustainability solution designed to:**

- **Meet recycling goals**
- **Reduce hospital waste**

Nellcor™ pulse oximetry sensors, Kendall DL™ Disposable Cable and Lead Wires are intended for single-patient use.

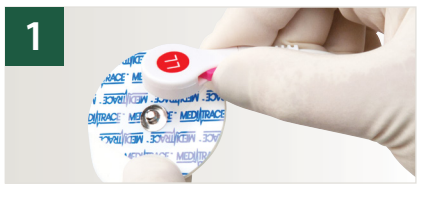

Used Nellcor™ pulse oximetry sensors, cables and lead wires should be placed in the provided collection bins after the patient is discharged.

## After every patient use:

## Kendall DL™ Disposable Cable and Lead Wires

1

Detach all electrodes by pushing the pink button and releasing the head of the lead set from the electrode snap.

2

Disconnect the cable or lead set from the bedside monitor or telemetry box.

3

Leave the reusable adapter connected to the bedside monitor or telemetry box.

## Do not use collection bins to discard the following items:

**Sharps**
No scalpels, needles, syringes, sutures or glass

**Waste**
No personal equipment, trash, patient care disposables or linens

**Batteries**
Remove from device but do not place in collection container

**Reusable Kendall DL™ adapters**
Leave adapters connected to bedside monitors or telemetry boxes
